Spohn's Distemper Compound

to break it up and get them back in condition. Twenty-six years' use has made "Spohn's" indispensable in treating Coughs and Colds, Influenza and Distemper, with their resulting complications, and all diseases of the throat, nose and lungs. Acts marvelously as a preventive, acts equally well as a cure. 50 cents and \$1.00 per bottle at drug stores.
SPOHN MEDICAL COMPANY, Goshen, Ind.

Skin Sufferers Do Not
Want Mere Temporary Relief

Of course, if you are content to have only temporary relief from the terrible itching and burning of skin diseases, then you are satisfied to remain a slave to ointments, lotions and other local remedies applied to the surface of the skin.

Real genuine relief from eczema, better, sealy eruptions or any other form of skin irritation cannot be expected until you free your blood of the germs which cause these disorders. And for this purpose

there is no remedy that gives more satisfactory results than S.S.S., the fine old blood remedy that goes down to the source of every blood disorder and routs out the germs which cause the trouble.

S.S.S. is sold by all druggists. Begin taking it today, and if you will write a complete history of your case, our medical director will give you expert advice without charge. Address Chief Medical Adviser, 155 Swift Laboratory, Atlanta, Ga.

An Eye Out for the Drunks.
If any reader thinks this little story is far-fetched he is right—we got it direct from distant Shanghai. A beautiful lady was giving a dinner party to a number of soldiers who had been half-blinded and otherwise wounded in the war, and during the supper the hostess was astonished to receive a glass eye rolling on a plate.

"It's from my pal, Bill," explained one of the guests politely. "He sent it up to see if there are any drunks at your end of the table, 'cos there ain't any at his."—Boston Transcript.

Waiting works wonders if you work while you wait.

Another Royal Suggestion
COOKIES and DROP CAKES
From the NEW ROYAL COOK BOOK

WHEN the children romp in hunger, here are some wholesome delights that will satisfy the most ravenous appetite.

Cookies
1 cup shortening
1 cup sugar
1 cup milk
2 eggs
1 teaspoon grated nutmeg
1 teaspoon vanilla extract
or grated rind of 1 lemon
4 cups flour
3 teaspoons Royal Baking Powder
Cream shortening and sugar together; add milk to beaten eggs and beat again; add slowly to creamed shortening and sugar; add nutmeg and flavoring; add 2 cups flour sifted with baking powder; add enough more flour to make stiff dough. Roll out very thin on floured board; cut with cookie cutter, sprinkle with sugar, or put a raisin or a piece of English walnut in the center of each. Bake about 12 minutes in hot oven.

Cocoa Drop Cakes
4 tablespoons shortening
1 cup sugar
1 egg
1 cup milk
1 1/2 cups flour
3 teaspoons Royal Baking Powder
1/2 cup cocoa
1 teaspoon salt
1 teaspoon vanilla
Cream shortening; add sugar and well-beaten egg; beat well and add milk slowly; sift flour, baking powder, salt and cocoa into mixture; stir until smooth, add vanilla. Put one tablespoon of batter into each greased muffin tin and bake in moderate oven about 20 minutes. Cover with boiled icing.

ROYAL
BAKING
POWDER

Absolutely Pure

Made from Cream of Tartar, derived from grapes.

COOK BOOK FREE

The new Royal Cook Book containing 400 delightful recipes, will be sent to you free if you will send your name and address.

MILLIONS SAVED TO PRODUCERS
THROUGH IMPROVED MARKETING

Marketing Representative Addressing Group of Farmers in Field.

Five and a half million dollars. That is the amount of savings and increased profits estimated to have been secured by producers through the assistance of the United States bureau of markets' field representatives in marketing, working in co-operation with state marketing agencies in 11 states during the year ended June 30, 1920. This figure is made up of hundreds of individual items of savings and additional profits estimated by growers, shippers and marketing agencies concerned and reported to the United States bureau of markets.

State co-operative work in marketing is carried on by the United States department of agriculture in 31 states, but information regarding the total savings effected in all of them is not yet available.

Improvement in methods of marketing and distributing farm products is the object of this marketing work. Investigations of grading, packing, loading, shipping and marketing are made and visual demonstrations given producers to familiarize them with the best marketing methods. Thus, some 200 demonstrations of approved practices of preparing farm products for market and over 700 talks relative to packing, grading, handling, storing and selling farm products and the formation of associations for co-operative activity were given. In one state alone two co-operative live-stock shipping associations with a membership of 3,030 shippers were formed, and an estimated saving of \$73,548 secured through the co-operative shipping of 333 cars of cattle, hogs and sheep from 39 counties.

Aid Marketing Organizations.
While complete figures are not available, those at hand show that the field men were instrumental in the formation of 183 marketing organizations, including 50 live-stock shipping associations and 57 fruit or vegetable associations. They also assisted in the organization of 12 credit unions and 19 federations of existing associations, most of which are statewide in scope. One hundred and sixty-six wool pools handling over 10,000,000 pounds of wool were given assistance in organization and grading. In a number of states the field men, through state agencies, secured the adoption of federal standards for farm products and containers. One hundred and thirty-eight groups of producers were assisted in making co-operative sales. One sale included 417 head of cattle, which sold for \$2,508.97 above the prices quoted by local buyers on the day of sale.

Instruction in the marketing of

sweet potatoes was given producers and shippers in the Southern states. In one state plans and specifications for 39 sweet-potato storage houses were furnished and in another state 53 storage houses constructed from plans furnished by the United States bureau of markets. A sweet-potato exhibit car was arranged and moved 1,100 miles over four railroads touching 31 points in the sweet-potato producing sections. The exhibit included a miniature model storage house, working plans, and specifications for storage houses, pictures, charts, and slides showing approved methods of production, harvesting, storing, grading and packing.

Demonstrates Approved Methods.
Exhibits illustrating approved marketing practices were conducted in six states. In most instances these exhibits were in connection with state or district fairs or at expositions of more than state importance. Colorado's potato shipments run from 9,000 to 13,500 cars a year. Of this quantity, 40 per cent is moved during the winter months when there is great danger of frost damage in transit. To stimulate interest among Colorado potato growers and shippers in better marketing conditions, an exhibit of a full-sized freight car was produced in the Denver Auditorium at the Western potato show this year to show by actual demonstration proper methods of lining and loading cars of potatoes to prevent loss from freezing in transit, and of sewing sacks to prevent loss of potatoes slipping through the tops of sacks. Some 3,000 people attended the exhibit, and it is confidently believed that a greater number of cars will be loaded properly.

Twenty-five short instruction courses relative to various phases of marketing were given in six states. In one state a course of lectures covering 12 weeks was given in a school of commerce. Co-operative enterprises in accounting problems. The collection and dissemination of information relative to quantity, quality and price of local produce offered for sale was arranged for at 11 points in four states.

The United States bureau of markets' report of the work of its field agents in marketing shows that the accomplishments were greater in number and of more value to producers and consumers during the year ended June 30, 1920, than in any previous year. It is felt that work of this character should make possible the development of a consistent national policy in improving marketing methods.

FARM ACCOUNTS AID
TO BETTER PROFITS

Quite Essential to Any Well-Thought-Out Plan.

Farmer Enabled to Meet Conditions in Way That Will Give Him Greatest Net Returns on Various Crops He Produces.

Farming is a business, and to be successful it must be conducted in a businesslike manner. It involves the production and sale of commodities. Just as does manufacturing. The business man, whether in factory or on farm, should be constantly considering two questions:

1. What profit is my business making?
2. How can that profit be increased?

The first of these must be answered before an intelligent effort can be made to answer the second. Proper accounting leads directly to the answer to the first question, and hence it is essential to any well-thought-out plan to increase profits.

The problem of the farmer is to meet conditions on his own farm in a way that will give him the greatest net returns, year in and year out, for the use of his capital, his labor, and his managerial ability. Before he can be considered a successful farm operator he must produce results that will cover the value of all these. Capital can earn interest without labor on the part of its owner, and labor can earn wages without owning any capital. The farmer, utilizing both in the conduct of his business, should secure returns that will cover both interest and wages. Not until both of these have been more than covered can any profit be credited to the farming operations. Nothing but return in excess of interest and wages can properly be consid-

There is reason to believe that many farmers, owing to a lack of proper records, do not know what returns they actually receive, nor how these compare with what they should receive for their work and the use of their capital. Doubtless many are living on the interest of their capital, making small wages or none, and no net profits.

Write the United States department of agriculture, Washington, D. C., for Farmers' bulletin, 511, "Farm Book-keeping," which may be had upon request.

PAINT FOR INSIDE OF SILOS

Specially Prepared Mixtures Are Put Up by Firms Which Build Huge Receipts.

Some of the firms putting up concrete silos have specially prepared mixtures to use in painting the inside. A wash of pure cement is often used to fill the pores of the silo walls. Prof. J. B. Fitch, head of the dairy department of the Kansas State Agricultural college, states that he prefers to use warm tar or hot paraffine to coat the inside of concrete silos. He says: "If you can keep the tar warm and put it on when thin it will make a good inside coat. The same is true of melted paraffine. I have had good results from using both of these."

EXCELLENT EMERGENCY CROP

Soy Beans When Cut and Cured Properly Compare Favorably With Alfalfa for Stock.

Soy beans make an excellent emergency hay crop when cut and cured properly and the hay compares very favorably with alfalfa hay for sheep and cattle. It is rich in digestible protein, averaging about 12 per cent, while alfalfa averages 11 per cent and timothy 3 per cent. The yields of air-dried hay on the co-operative test fields last year varied from 1,200 to 3,500 pounds per acre.

Kill That Cold With
HILL'S
CASCARA QUININE
FOR
Colds, Coughs AND La Grippe

Neglected Colds are Dangerous
Take no chances. Keep this standard remedy handy for the first sneeze.
Breaks up a cold in 24 hours—Relieves Grippe in 3 days—Excellent for Headache
Quinine in this form does not affect the head—Cascara is best Tonic Laxative—No Opium in Hill's.

A Friendly Remark.
Actor—I saved the show, but I admit I did hog it a bit.
Friend—Yes, you did look like a pig in a poke.

Never Tires.
"A woman's tongue is unlike any other engine of action."
"In what way?"
"It has no exhaust."

"ASPIRIN"

WARNING! Unless you see the name "Bayer" on tablets you are not getting genuine Aspirin prescribed by physicians for 20 years and proved safe by millions. Name "Bayer" has same meaning as 14 Karat on gold.

SAFETY FIRST! Accept only an "unbroken package" of genuine "Bayer Tablets of Aspirin," which contains proper directions for Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism, Neuritis, Lumbago, and for pain generally. Strictly American

Handy tin boxes of 12 tablets cost but a few cents—Larger packages. Aspirin is the trade mark of Bayer Manufacture of Monocetolacidester of Salicylicacid

MILL GIRLS MARRY YOUNG
AT LEAST ONE GIRL SORRY

Many Villages in the South Where There Are Absolutely No Old Maids Found.

A village without an old maid sounds somewhat like a fairy tale, but several such places exist down below the Mason and Dixon line.

"All the women get married in the mill villages of South Carolina, and at an early age," says a Y. W. C. A. industrial secretary stationed at Greenville, where she works among the girls in 13 mills.

Perhaps economic independence has something to do with it, as marriage is not looked upon by the girls as a meal ticket, but as a fifty-fifty proposition. The wives do not give up their jobs but keep right on working.

That the textile industry in South Carolina absorbs a large number of women as well as men workers is not surprising considering the fact that there are as many as 15 mills in 29 counties. With the population of the state estimated at 1,500,015 people, 122,904 are mill workers, and 190,238 are dependents on mill pay. The valuation of the mills is \$75,000,000 and the weekly pay roll is \$1,000,000.

Sure Enough.
"The hygienic experts set their faces against kissing."
"Who doesn't?"
